

International Conference on Advances in Radiation Oncology #ICARO2

Thursday, June 22, 2017

Thursday morning - Poster Presentations - Screen2 (10:30 AM - 11:00 AM)

-Conveners: Oleg Belyakov

time	[id] title	presenter
10:30 AM	[185] Film2Dose: an research intended tool to access the combined standard uncertainty on radiochromic film dosimetry using multi-channel optimization.	LEANDRO ALVES, Victor Gabriel
10:35 AM	[190] Commissioning and validation of total skin electron therapy (TSET)	PHURAILATPAM, Reena Devi
10:40 AM	[233] An evaluation of the portal dosimetry and arccheck systems for VMAT pre-treatment patient QA plan verification	BODALE, Marin
10:45 AM	[237] Commissioning and validation of Total Body Irradiation (TBI) in Varian True Beam linear accelerator (LA)	NOJIN PAUL, Siji
10:50 AM	[263] End-to-end test and TPS QA using heterogeneous anthropomorphic phantom	KRYLOVA, Tatiana
10:55 AM	[264] Quality audit of IMRT treatment using EBT3 film and RPL glass dosimetry system	ALONSO, David ALONSO SAMPER, Jose Luis
