

International Conference on Advances in Radiation Oncology #ICARO2

Thursday, June 22, 2017

Thursday morning - Poster Presentations - Screen4 (10:30 AM - 11:00 AM)

-Conveners: Oleg Belyakov

time	[id] title	presenter
10:30 AM	[85] Measurement of the percentage dose at surface with radiochromic films	GALVAN, Olga
10:35 AM	[130] Normal tissue complication probability calculation in normal and hypo-fractionated radiotherapy of head & neck tumors	CALDERON MARIN, Carlos Fabian
10:40 AM	[132] Radiobiological modeling and treatment planning for sequential and concurrent combination of internal and external radiotherapy modalities	CALDERÓN MARÍN, Carlos Fabián
10:45 AM	[248] Toxicity of radical radiotherapy with or without chemotherapy in HIV positive and negative women treated for locally advanced cervical cancer	KIGULA, Joseph Brown Mugambe
10:50 AM	[304] Implementation of the IAEA-TECDOC-1583 with IMRT and VMAT test plans as a dosimetric verification for AAA and Acuros XB algorithms using heterogeneous phantom	NOBAH, Ahmad
10:55 AM	[321] Development and refinement of the canadian national system for incident reporting in radiation treatment (NSIR-RT)	KILDEA, John
