More precise definitions of the perturbation theory formulas for reactivity effects calculations

B.D. Abramov

Leading Scientist of IPPE, Obninsk, Russia. E-mail: abramov@ippe.ru

Abstract

The paper is devoted to the issues of development and modification of methods of evaluation of reactivity effects.

There have not any references to this effect in the publications available. However, the similar reactivity effects are known.

Country/Int. Organization

Russia, Obninsk, IPPE

Primary author: Mr ABRAMOV, boris (Joint Stock Company "State Scientific Centre of the Russian Federation – Institute for Physics and Power Engineering named after A. I. Leypunsky")

Presenter: Mr ABRAMOV, boris (Joint Stock Company "State Scientific Centre of the Russian Federation – Institute for Physics and Power Engineering named after A. I. Leypunsky")

Session Classification: Poster Session 2

Track Classification: Track 6. Test Reactors, Experiments and Modeling and Simulations
