## Implementation of IAEA safeguards at the Belarusian NPP

Issues of application of IAEA safeguards at the Belarusian NPP which is under construction now are considered in the report.

Adhere the requirements of the regulatory documents of the Republic of Belarus a system accounting for and control of nuclear material has been established at the Belarusian NPP, namely: a structural subdivision and responsible personnel have been defined, functions and responsibilities are assigned, documents and regulating procedures for maintaining the accounting and control system have been developed, the boundaries of the MBA and KMP have been defined, the preparation of the final DIQ is in progress.

The systematic and successful development of procedures for accounting and control at the facility level and their implementation ensures that Republic of Belarus discharges its international liabilities.
