The education and training offer in nuclear safeguards within the EURATOM Research and Training project “ANNETTE”

Thursday, 8 November 2018 11:48 (1 minute)

The ‘Advanced Networking for Nuclear Education, Training and Transfer of Expertise’(ANNETTE) is a Horizon2020 project aiming at advanced networking for nuclear education, training and transfer of expertise. Four partners (the Belgian nuclear research centre SCK•CEN, the European Commission Joint Research Centre, Uppsala University, and Forschungszentrum Jülich) contribute to the ANNETTE project to provide education and training (E&T) in nuclear safeguards. The activities are supported by the European Safeguards Research and Development Association (ESARDA), in particular within the Training and Knowledge Management (TKM) Working Group. The foreseen E&T offer in nuclear safeguards consists of a training course as part of the 60 ECTS ANNETTE European Master Programme for Continuous Professional Development, a contribution to the ANNETTE Summer School on Nuclear Technology, Nuclear Waste Management and Radiation Protection, and a Massive Open On-line Course (MOOC) on “Introduction to Safeguards”. In addition, four thematic workshops will be given by SCK•CEN and Forschungszentrum Jülich. The target audience for these activities are young professionals and young researchers, with all activities to be completed before December 2019. In this contribution we describe the overall E&T offer in nuclear safeguards within the ANNETTE project and present the preliminary outcomes from the activities carried out so far.

Topics

CHA1

Primary author: Dr ROSSA, Riccardo (SCK-CEN)

Co-authors: Dr NIEMEYER, Irmgard (Forschungszentrum Juelich GmbH); Dr ABBAS, Kamel (European Commission, Joint Research Centre, Nuclear Security Unit); Mr VAN DER MEER, Klaas (SCK.CEN); Dr GRAPE, Sophie (Uppsala University); Mr KRIEGER, Thomas (IAEA, SGIM-IFC)

Presenter: Dr ROSSA, Riccardo (SCK-CEN)

Session Classification: [CHA] Capacity Building: National Initiatives

Track Classification: Addressing Growing Safeguards Challenges (CHA)
