

27th IAEA Fusion Energy Conference - IAEA CN-258

Wednesday, October 24, 2018

EX/2 Pedestal & ELM Optimization (10:45 AM - 12:30 PM)

time	[id] title	presenter
10:45 AM	[201] Impact of ELM control in JET experiments on H-mode terminations with/without current ramp-down and implications for ITER	Dr DE LA LUNA, Elena
11:05 AM	[580] Viability of Wide Pedestal QH-Mode for Burning Plasma Operation	Dr ERNST, Darin
11:25 AM	[261] Advances in the understanding of the I-mode confinement regime: access, stationarity, edge/SOL transport and divertor impact	Dr HAPPEL, Tim
11:45 AM	[398] High Fusion Performance in Super H-Mode Experiments on Alcator C-Mod and DIII-D	Dr SNYDER, Philip
12:05 PM	[272] Plasma shape and fueling dependence on the small ELM regime in TCV and AUG	Dr LABIT, BENOIT
