

## 27th IAEA Fusion Energy Conference - IAEA CN-258

### Friday, October 26, 2018

#### EX/8, PPC/2 - TH/6 Heating, Current Drive & Steady State (2:00 PM - 4:10 PM)

time	[id] title	presenter
2:00 PM	[253] Modelling third field operation in the ITER pre-fusion power operation phase	Dr SCHNEIDER, Mireille
2:20 PM	[373] Predictions of alpha-particle and neutral-beam heating and transport in ITER scenarios	Dr BASS, Eric M.
2:40 PM	[446] Exploring an Alternate Approach to Q=10 in ITER	Dr LUCE, Timothy C.
3:00 PM	[362] Real-time simulation of the NBI fast-ion distribution	WEILAND, Markus
3:20 PM	[197] Recent advances in ICRF heating of mixture plasmas: survey of JET and AUG experiments and extrapolation to JET-DT and ITER	Dr KAZAKOV, Yevgen
3:40 PM	[105] Experimental Evidence of Lower Hybrid Wave Scattering in Alcator C-Mod due to Scrape Off Layer Density Fluctuations	Dr WALLACE, Gregory
