

International Symposium on Understanding the Double Burden of Malnutrition for Effective Interventions

Monday, 10 December 2018 - Thursday, 13 December 2018

IAEA, Vienna

Scientific Programme

Epidemiology

Prevalence, causes and consequences of the DBM

Biology

Biological mechanisms contributing to the DBM

Assessment

How to assess the DBM in individuals and populations

Interventions

From biology to interventions targeting the DBM

Policy implications

From biology to policies addressing the DBM

IYCF - complementary feeding

1000 days - Preconception

1000 days maternal nutrition

IYCF - breastfeeding

IYCF - complementary feeding

Undernutrition

Obesity

Food System

DBMal

Micronutrients

Epigenetics

Microbiome

Environmental Hazards

Other

IYCF - Breastfeeding
