

Session Program

20–24 May 2019

International Symposium on Isotope Hydrology: Advancing the Understanding of Water Cycle Processes CN-271

SESSION 7

Vienna International Centre, Board Room C
C Building, 4th Floor

Friday 24 May

10:30

SESSION 7: Frontiers in isotope hydrology

Session | Location: Vienna International Centre, Board Room C, C Building, 4th Floor | Conveners:
Mr Leonard I. Wassenaar, Tricia Stadnyk

10:30–11:00

Landing (noble) gas analytics in the field - towards real time insitu gas determination (or how mini-Ruedi Ruessel sniffs the World)

Speaker

Prof. Rolf Kipfer

11:00–11:30

New perspectives for ^{39}Ar -dating in the hydrosphere

Speaker

Prof. Werner Aeschbach

11:30–12:00

23 unsolved problems in hydrology (and how isotopes may help)

Speaker

Günter Blöschl

12:00
