

# International Conference on the Management of Spent Fuel from Nuclear Power Reactors 2019: Learning from the Past, Enabling the Future

Contribution ID: 58

Type: **Oral**

## Japan's nuclear fuel cycle policy

*Monday, 24 June 2019 17:30 (20 minutes)*

The basic policy of Japan is to promote a nuclear fuel cycle that reprocesses spent fuels and effectively utilizes the plutonium etc. retrieved, from the viewpoint of effective utilization of resources and reduction of the volume and harmfulness of high-level radioactive waste. This paper explains our policy and efforts regarding the nuclear fuel cycle.
