

International Symposium on Trends in Radiopharmaceuticals (ISTR-2019)

Tuesday, 29 October 2019

S.5: Production of radiopharmaceuticals: SPECT (11:00 - 12:30)

time	[id] title	presenter
11:00	[250] A. Duatti: Revisiting 99mTc Radiopharmaceuticals with recent advances in chemistry & imaging tools (IS)	
11:25	[251] G. Ferro-Flores: Production of radiolabelled peptides for SPECT-based theranostics (IS)	
11:45	[187] Radiopharmacy and growth of nuclear medicine in developing countries	Prof. BOUYOUCHEF, Salah Mrs FELLAH , Amel
12:00	[173] Selective $\alpha\beta 3$ integrin detection using [99mTc(N)PNP43]-tagged RGDechi Peptides: synthesis and pharmacological studies	BOLZATI, Cristina
12:15	[109] The past, present and future trends in radiopharmaceuticals production in Brazil	Mr ARAUJO PERINI, Efrain
