

# Technical Meeting on Structural Materials for Heavy Liquid Metal Cooled Fast Reactors

## Thursday, 17 October 2019

### Session III: Qualification Programmes of Structural Materials for HLM Fast Reactors: contd... - M4 (09:30 - 10:40)

-Conveners: Bin Long

time	[id] title	presenter
09:30	[5] ID-5: Overview of materials research for LFR in China	Mr WANG, Zhiguang
09:50	[9] ID-9: The effect of lead bismuth eutectic on structural materials for the accelerator driven system MYRRHA	Mr STERGAR, Erich
10:10	[10] ID-10: Qualification programme of candidate materials for ALFRED	Ms BASSINI, Serena

### Session III: Qualification Programmes of Structural Materials for HLM Fast Reactors: contd... - M4 (11:00 - 12:00)

-Conveners: Erich Stergar; Bin Long

time	[id] title	presenter
11:00	[16] ID-16: Some new R&D focuse in structure materials licensing for the SVBR-100 reactor facilities	DEDUL, Alexander
11:30	[2] ID-2: Statue of HLMC technology and related research in China Institute of Atomic Energy	LONG, Bin
