THE IMPERATIVES
You have been invited to record by yourself your presentation before the Conference. This document will help you to get started and will give you important recommendations for your presentations.

### NECESSARY EQUIPMENT
A laptop or a desktop computer with a web camera and a microphone. If you are using a laptop, make sure that your battery is charged.

### OBS STUDIO
We invite you to record your oral presentation using OBS:
https://obsproject.com
Please follow the demo video to prepare your recording.
https://vimeo.com/518153120
Use a 4/3 layout for your PowerPoint presentation.

### CONFERENCE FORMAT

<table>
<thead>
<tr>
<th>Oral presentations</th>
</tr>
</thead>
<tbody>
<tr>
<td>Every oral presentation has to be recorded in advance and will be broadcast during the conference. Then a slot for questions &amp; answers will go live at the end of each session (after all oral presentations are broadcast), with the session chair and all the session speakers talking live together. Participants will send their questions to the session chair and session speakers through the written chat available.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Posters</th>
</tr>
</thead>
</table>
| Every author will have to send an e-poster as a PDF document through INDICO, and have the possibility to send also a short video through VIMEO:  
- 7 minutes maximum for overview posters  
- 5 minutes maximum for regular posters  
A dedicated written chat will be activated during the poster sessions, for participants to talk with poster authors. |
THE IMPERATIVES

You have been invited to record by yourself your presentation before the Conference. This document will help you to get started and will give you important recommendations for your presentations.

4 HEADPHONES
Headphones are highly recommended to avoid echo and for a higher performance.

If you use wireless headphones, make sure that they are charged enough.

5 CAMERA
The camera should be placed at eye level (raise your computer with books). You should look at the camera throughout your presentation.

6 ENVIRONMENT
In order to be visible, make sure you are well seated with neutral background. Make sure you are in front of a point of light (a window behind you, could create a backlight). In order to be audible, check that there is no background noises around you before recording.

7 POWERPOINT SUPPORT
For your recording, make sure to prepare a clear PowerPoint presentation (4/3 layout).

Minimize the content of your slides and use a large font for the text to make it easier for the participants to read if they have a slow Internet connection which could make the broadcast blurry.
GET READY FOR THE DIGITAL FORUM
You will find below all the steps to properly record your presentation.

RECORDING
You will find enclosed a tutorial video to use the OBS software. It will guide you step by step to make the best record possible!

You are responsible for recording your presentation in advance. Your video MUST RESPECT the allocated maximum time for your talk given by IAEA, as well as the deadline.

TRAINING > APRIL
The Company AOS has been appointed to manage live broadcast of the Conference sessions. AOS team will contact you soon for you to get trained to your live performance during the meeting. The training sessions will be organized in April. You will receive an e-mail from fec2020@aoscongres.com.
