

Session Program

10-15 May 2021

28th IAEA Fusion Energy Conference (FEC 2020)

OV/1 Overview Magnetic Fusion

Virtual Event

Monday 10 May

10:45

OV/1 Overview Magnetic Fusion

Session | Location: Virtual Event

10:45–11:06 **Preparation for Assembly and Commissioning of ITER**

Speaker

Bernard Bigot

11:06–11:27 **Overview of JET results for optimising ITER operation**

Speaker

Dr Joelle Mailloux

11:27–11:48

DIII-D Research Advancing the Physics Basis for Optimizing the Tokamak Approach to Fusion Energy

Speaker

Max Fenstermacher

11:48–12:09

Advances in the long-pulse steady-state high beta H-mode scenario with active controls of divertor heat and particle fluxes on EAST

Speaker

Baonian Wan

12:09–12:39 **Q&A**

12:40
