

International Conference on Fast Reactors and Related Fuel Cycles FR22:
Sustainable Clean Energy for the Future (CN-291)

Contribution ID: 268

Type: ORAL

Application of a Risk-Informed Performance-Based Approach for the Authorization of the Versatile Test Reactor

Tuesday, 19 April 2022 16:46 (12 minutes)

Country/Int. organization

United States of America

Speaker's email address

Jason.Andrus@inl.gov

Speaker's title

Mr

Affiliation/Organization

Idaho National Laboratory

Primary authors: ANDRUS, Jason (Idaho National Laboratory); GRABASKAS, David (Argonne National Laboratory); BUCKNOR, Matthew (Argonne National Laboratory); Mr HENNEKE, Dennis (GE-Hitachi Nuclear Energy); LI, Yunlong (Jonathan) (GE Hitachi Nuclear Energy); Mr REISS, Troy (INL); Mr GERSTNER, Doug (INL)

Presenter: ANDRUS, Jason (Idaho National Laboratory)

Session Classification: 2.1 General Safety Approach

Track Classification: Track 2. Fast Reactor Safety
