

International Conference on Fast Reactors and Related Fuel Cycles FR22:
Sustainable Clean Energy for the Future (CN-291)

Contribution ID: 240

Type: ORAL

Overview of the Versatile Test Reactor Safety Analysis

Wednesday 20 April 2022 10:40 (12 minutes)

Country/Int. organization

United States of America

Author: SUMNER, Tyler (Argonne National Laboratory)

Co-authors: FANNING, Thomas (Argonne National Laboratory); THOMAS, Justin (Argonne National Laboratory)

Presenter: SUMNER, Tyler (Argonne National Laboratory)

Session Classification: 2.2 Safety Design and Analysis

Track Classification: Track 2. Fast Reactor Safety
