

International Conference on Fast Reactors and Related Fuel Cycles FR22:
Sustainable Clean Energy for the Future (CN-291)

Contribution ID: 203

Type: POSTER

Experimental and Numerical Study on Temperature Fluctuation in The Upper Plenum of Fast Reactor

Wednesday 20 April 2022 13:40 (2 hours)

Country/Int. organization

China

Authors: Mr DU, Yongqi (North China Electric Power University); Prof. LU, Daogang (North China Electric Power University); Dr CAO, Qiong (North China Electric Power University); Mr SI, Yu (North China Electric Power University); Mr MA, Benhao (North China Electric Power University)

Presenter: Mr DU, Yongqi (North China Electric Power University)

Session Classification: Poster Session

Track Classification: Track 2. Fast Reactor Safety
