

International Conference on Fast Reactors and Related Fuel Cycles FR22:
Sustainable Clean Energy for the Future (CN-291)

Contribution ID: 537

Type: ORAL

Sodium coolant: interaction with its environment and coolant processing

Tuesday 19 April 2022 14:00 (12 minutes)

Country/Int. organization

France

Author: Dr LATGE, Christian (CEA)

Presenter: Dr LATGE, Christian (CEA)

Session Classification: 4.1 Advanced Reactor Cladding and Core Material, Coolants, and Related Chemistry

Track Classification: Track 4. Fast Reactor Materials (Coolants, Structures) and Components
