

International Conference on Fast Reactors and Related Fuel Cycles FR22:  
Sustainable Clean Energy for the Future (CN-291)

Contribution ID: 322

Type: ORAL

## Influence of Low Dose Irradiation on Permanent Core Structural Materials of PFBR

*Tuesday 19 April 2022 13:48 (12 minutes)*

### Country/Int. organization

India

**Authors:** Mr KUMAR, Ran Vijay (Indira Gandhi Centre for Atomic Research); KOLHATKAR, Ashish (IGCAR); V V, JAYARAJ (Indira Gandhi Centre for Atomic Research); Dr C, Padmaprabu (Indira Gandhi Centre for Atomic Research); Ms M, Shreevalli (Homi Bhabha National Institute (HBNI)); VENKATASUBRAMANIAN, Karthik (Indira Gandhi Centre for Atomic Research); C.N., VENKITESWARAN (IGCAR); PADMANABHAN, Parameswaran (Indira Gandhi Centre for Atomic Research); RAMACHANDRAN, Divakar (Indira Gandhi Centre for Atomic Research); Dr K, Shaju Albert (Group Director, Indira Gandhi Centre for Atomic Research)

**Presenter:** Mr KUMAR, Ran Vijay (Indira Gandhi Centre for Atomic Research)

**Session Classification:** 4.1 Advanced Reactor Cladding and Core Material, Coolants, and Related Chemistry

**Track Classification:** Track 4. Fast Reactor Materials (Coolants, Structures) and Components
