

International Conference on Fast Reactors and Related Fuel Cycles FR22:
Sustainable Clean Energy for the Future (CN-291)

Contribution ID: 236

Type: POSTER

Influence of preheating temperature on delta-ferrite formation and mechanical properties of 12%Cr steel weld metals

Wednesday, 20 April 2022 10:40 (2 hours)

Country/Int. organization

China

Speaker's email address

wudong@imr.ac.cn

Speaker's title

Mr

Affiliation/Organization

Institute of metal research, Chinese Academy of Sciences

Primary author: Dr WU, Dong

Co-authors: Prof. LU, Shanping (Institute of Metal Research, Chinese Academy of Sciences); Prof. LI, Dianzhong; Prof. LI, Yiyi (Institute of Metal Research, Chinese Academy of Sciences)

Presenter: Dr WU, Dong

Session Classification: Poster Session

Track Classification: Track 4. Fast Reactor Materials (Coolants, Structures) and Components
