

International Conference on Fast Reactors and Related Fuel Cycles FR22:  
Sustainable Clean Energy for the Future (CN-291)

Contribution ID: 393

Type: POSTER

# Impact of Core Materials on The Fuel cladding Irradiation Damage in Breed-and-Burn Fast Reactors

*Wednesday, April 20, 2022 10:40 AM (2 hours)*

## Speaker's email address

odmaa@seas.num.edu.mn

## Speaker's title

Ms

## Country/Int. organization

Mongolia

## Affiliation/Organization

National University of Mongolia

**Primary author:** Dr SAMBUU, Odmaa (School of Engineering and Applied Sciences, National University of Mongolia)

**Co-authors:** Prof. OBARA, Toru (Tokyo Institute of Technology); Dr NISHIYAMA, Jun (Tokyo Institute of Technology); Dr HOANG VAN, Khanh (Institute for Nuclear Science and Technology, Vietnam Atomic Energy Institute)

**Presenter:** Dr SAMBUU, Odmaa (School of Engineering and Applied Sciences, National University of Mongolia)

**Session Classification:** Poster Session

**Track Classification:** Track 4. Fast Reactor Materials (Coolants, Structures) and Components
