

International Conference on Advances in Radiation Oncology #ICARO3

Thursday, 18 February 2021

Physics Papers 2: Physics Papers 2 (14:00 - 14:50)

time	[id] title	presenter
14:00	[34] Volumetric Modulated Arc Therapy (VMAT): The gold standard for the present and future of radiotherapy?	Mrs HUNTE, Sherisse
14:10	[44] A study on the determination of relative output factors for very small fields in stereotactic radiosurgery	Mr DO DUC, Chi Dr HILL, Robin
14:20	[46] Establishment of an Incident reporting and learning System as a tool for Quality Management in Uganda's radiotherapy services: A case of the low resource setting	Mr KOMAKECH, Ignatius
14:30	[79] Evaluation of positioning and dosimetry uncertainties in patients treated with intensity modulation radiotherapy (IMRT) for nasopharyngeal cancers in Tunisia	ELAMRI, Nesrine
14:40	[111] Determination and comparison of output factors in small field for field square and rectangular field with 5 detectors for For 6 Mv.	GARCIA, BERTHA
