

13th Technical Meeting on Plasma Control Systems, Data Management and Remote Experiments in Fusion Research

Tuesday, 6 July 2021

Plasma Control 2 (14:00 - 15:00)

-Conveners: Sang-hee Hahn

time	[id] title	presenter
14:00	[47] Preliminary Application of Hardware-in-the-loop Simulation Technology in EAST PCS Control Simulation	Mr ZHANG, Yanci
14:10	[50] Application of RTF Architecture in EAST Radiation Control Subsystem	Mr HUANG, Junjie
14:20	[54] Overview of the TCV digital real time plasma control system and its applications	GALPERTI, Cristian
14:30	[55] The Preliminary Design of New Plasma Control System based on real-time Linux cluster for HL-2M	HUANG, zhongmin
14:40	[56] Use of MARTe2 to enhance the JET Real-Time Central Controller.	Mr STUART, Chris I.
14:50	[57] First Applications of MARTe2/MDSplus/Simulink framework for real-time control applications.	STILLERMAN, Joshua
