

International Conference on Safety and Security of Radioactive Sources: Accomplishments and Future Endeavours, 20-24 June 2022

Biographical Information

Title	Dr.
First Name	Gustav
Last Name	Gbeddy
Position	Research Scientist
Institution	Ghana Atomic Energy Commission
Short background for introduction (3 – 7 sentences long)	<p>Gustav Gbeddy has over 7 years working experience as a Research Scientist in radioactive waste management as well as environmental science and technology. He plays an active role in coordinating all the project related activities for the borehole disposal of disused sealed radioactive sources in Ghana thereby ensuring that unnecessary burden is not imposed on present and future generations as a result of the application of sealed radioactive sources. Prior to his appointment as a Research Scientist, Gustav had his BSc in Chemistry and MPhil in Nuclear and Environmental Protection at the University of Ghana in 2007 and 2011, respectively. He subsequently proceeded to the Queensland University of Technology (QUT), Australia where he successfully completed his Doctorate degree in Analytical and Environmental Chemistry in 2020. He is poised in making an enduring positive impact in the peaceful application of nuclear science and technology in Ghana and across the globe.</p>
