

Regulation for the Safety and Security of Radioactive Sources in Azerbaijan

A. Guliyev

State Agency on Nuclear and Radiological Activity Regulation, Ministry of Emergency Situations of Azerbaijan Republic N. Rafiyev 66 Baku, AZ1025 Azerbaijan

In this paper, the infrastructure for control of radioactive sources in Azerbaijan is discussed. Especially the current system of regulatory control including legislation, authorization and inspection of radioactive sources is analyzed. Here also presents recent work and future plans in Azerbaijan related to increasing radioactive source safety and security.
