

Prof. Suresh Pillai is the Director of the National Center for Electron Beam Research (NCEBR) at Texas A&M University. NCEBR is an IAEA Collaborating Center for eBeam Technologies. Prof. Pillai is a Professor of Molecular Microbiology and Associate Department Head of the Department of Food Science and Technology at Texas A&M University. His research is focused on understanding the microbial responses to ionizing radiation and developing vaccines using eBeam technology. As Director of NCEBR, he is focused on expanding eBeam and X-ray applications in food, agriculture, environment, and industry around the world. He has published over 200 research articles and is the Editor of 6 books.
