

**Prof. Boris Sharkov:** Expertise in Particle accelerators, beam dynamics, generation of high phase space density ion beams; Inertial confinement fusion, applications of high intensity ion accelerators to fusion energy; PhD from the State University - MEPhI (1978), Doctor of Science (1991). Full Professor at the State University – MEPhI; 2005-2008 director of State Research Center ITEP-Moscow (Institute for Theoretical & Experimental Physics); 2009-2016: scientific managing director Facility for Antiproton and Ion Research in Europe (FAIR). Winner of Weckler Prize of Russian Academy of Sciences 2008. Kurchatov medal of ROSATOM, 2010. Laureate of States Prize of Russian Government 2010. Honorary doctor title from JINR 2014.
