

Dr. Nuno Pessoa Barradas obtained his PhD in Nuclear Physics in 1994 in the University of Lisbon, and also holds an MA in European Studies from the University of Surrey. He joined the operation team of the Portuguese Research Reactor in 1999 and became Director of the Portuguese Centre for Nuclear Sciences and Technologies in 2015. As a researcher, he worked on materials analysis with nuclear analytical techniques, publishing over 300 papers. He joined the IAEA in 2017, where he is Research Reactor Specialist, responsible for utilization and applications of research reactors.
