

Technical Meeting on Emerging Applications of Plasma Science and Technology

Tuesday, 19 September 2023

Water Treatment - CR-4 (15:00 - 16:45)

-Conveners: Gregor Primc

time	[id] title	presenter
15:00	[14] Inactivation of water-transmissible viruses by combining advanced oxidation techniques	Dr PRIMC, Gregor
15:30	[12] Plasma-based approaches for removing micropollutants/emerging contaminants from water; Case study of PFAS	Dr SALEEM, MUBBSHIR
16:00	[46] Exploring the Interface Between Plasmas and Liquids: Addressing Contemporary Challenges with Innovative Software Tools	CURRELI, Davide
16:30	[5] Removal of Dye Contaminates in Water by a Plasma Liquid Interface	NGUYEN, Duc Ba

Friday, 22 September 2023

Water Treatment: Summary and Discussion - CR-4 (09:45 - 10:30)
