

[REGULAR POSTER TWIN] Transition from Bursting ELMs to Continuous Turbulence Fluctuations in High SOL Density Regimes

Friday 17 October 2025 10:10 (20 minutes)

Speaker's email address

li55@llnl.gov

Speaker's Affiliation

Lawrence Livermore National Laboratory, Livermore, CA, 94550, USA

Member State or IGO

United States

Gender Survey (Speaker Only)

Ms

Author: LI, Nami (Lawrence Livermore National Laboratory)

Co-authors: VICTOR, Brian (Lawrence Livermore National Laboratory); WANG, Huiqian (General Atomics); XU, Xueqiao (Lawrence Livermore National Laboratory); Dr LI, Zeyu (General Atomics)

Presenter: LI, Nami (Lawrence Livermore National Laboratory)

Session Classification: Posters 5

Track Classification: TH - Magnetic Fusion Theory and Simulation: TH-P - Pedestal, Core-edge, Turbulence
