

A novel method to optimize omnigenity like quasisymmetry for stellarators

Friday 17 October 2025 15:00 (20 minutes)

Speaker's email address

caoxiangzhu@ustc.edu.cn

Speaker's Affiliation

University of Science and Technology of China, Hefei

Member State or IGO

China

Gender Survey (Speaker Only)

Mr

Author: ZHU, Caoxiang (University of Science and Technology of China)

Co-authors: Mr LIU, Hengqian (University of Science and Technology of China); Dr YU, Guodong (University of Science and Technology of China); Dr ZHUANG, Ge (University of Science and Technology of China)

Presenter: ZHU, Caoxiang (University of Science and Technology of China)

Session Classification: Disruption, RE, Stellarator

Track Classification: TH - Magnetic Fusion Theory and Simulation: TH-C - Confinement
