

ENERGETIC PARTICLES TRANSPORT IN THE PRESENCE OF GYROKINETIC TURBULENCE AND ALFVÉN ACTIVITY

Thursday 16 October 2025 11:46 (1 minute)

Speaker's email address

diego.delcastillo@austin.utexas.edu

Speaker's Affiliation

Institute for Fusion Studies, University of Texas, Austin

Member State or IGO

United States

Gender Survey (Speaker Only)

Mr

Author: DEL-CASTILLO-NEGRETE, Diego (Fusion Energy Division. Oak Ridge National Laboratory)

Co-authors: ZARZOSO, David (CNRS); BETAR, Homam (Renaissance Fusion); CLAVIER, Benoit (Aix Marseille University); Dr VARELA RODRIGUEZ, Jacobo (Institute for Fusion Studies, Department of Physics, University of Texas at Austin)

Presenter: DEL-CASTILLO-NEGRETE, Diego (Fusion Energy Division. Oak Ridge National Laboratory)

Session Classification: Posters 3

Track Classification: TH - Magnetic Fusion Theory and Simulation: TH-C - Confinement
