

# Fast ion transport in presence of magnetic perturbations using full-orbit and guiding-center simulations

Friday 17 October 2025 18:09 (1 minute)

## Speaker's email address

[martinel@nucleares.unam.mx](mailto:martinel@nucleares.unam.mx)

## Speaker's Affiliation

Institute of Nuclear Sciences, UNAM, Mexico City

## Member State or IGO

Mexico

## Gender Survey (Speaker Only)

Mr

**Authors:** MARTINELL, Julio (Nuclear Sciences Institute, National Autonomous University of Mexico); Dr CARBAJAL, Leopoldo (Type One Energy)

**Co-author:** Dr SAAVEDRA, Rodrigo (CICESE)

**Presenter:** MARTINELL, Julio (Nuclear Sciences Institute, National Autonomous University of Mexico)

**Session Classification:** Posters 6

**Track Classification:** TH - Magnetic Fusion Theory and Simulation: TH-C - Confinement
