

Magnetic flux surface mapping system at Chinese First Quasi-axisymmetric Stellarator

Friday 17 October 2025 18:09 (1 minute)

Speaker's email address

siriliu@my.swjtu.edu.cn

Speaker's Affiliation

Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University, Chengdu

Member State or IGO

China

Gender Survey (Speaker Only)

Mr

Author: Mr LIU, Xirui (Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University)

Co-authors: LIU, Haifeng (Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University); XU, Yuhong (Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University); SHOJI, Mamoru (National Institute for Fusion Science, National Institutes of Natural Sciences); SHIMIZU, Akihiro (National Institute for Fusion Science, National Institutes of Natural Sciences); ISOBE, Mitsutaka (National Institute for Fusion Science, National Institutes of Natural Sciences); CHENG, Jun (Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University); WANG, Xianqu (Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University); HUANG, Jie (Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University); LIU, Hai (Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University); ZHANG, Xin (Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University); SHEN, Junfeng (Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University); HU, Jun (Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University); LAN, Heng (Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University); LI, Yucai (Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University); ZHENG, Xiaofeng (Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University); LI, Dan (Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University); XUAN, Weiming (Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University); TANG, Changjian (Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University); YIN, Dapeng (Hefei Keye Electro Physical Equipment Manufacturing Co.)

Presenter: Mr LIU, Xirui (Institute of Fusion Science, School of Physical Science and Technology, Southwest Jiaotong University)

Session Classification: Posters 6

Track Classification: TEC - Fusion Energy Technology: TEC-FNT - Fusion Nuclear Technology
