

**INVESTIGATING THE FORMATION AND GROWTH  
OF FUZZY NANO-STRUCTURES DUE TO THE  
INTERACTION OF HELIUM PLASMA WITH  
TUNGSTEN UTILIZING A DC GLOW DISCHARGE  
PLASMA DEVICE**

*Saturday 18 October 2025 13:39 (1 minute)*

**Speaker's email address**

fsedighi@aeoi.org.ir

**Speaker's Affiliation**

Nuclear Science and Technology Research Institute (NSTRI), Tehran, Iran

**Member State or IGO**

Iran

**Gender Survey (Speaker Only)**

Mr

**Author:** Dr SEDIGHI, Faridodin (Nuclear Science and Technology Research Institute (NSTRI), Atomic Energy Organization of Iran (AEOI))

**Co-authors:** Prof. IRAJI, Davoud (Amirkabir University of Technology); Dr RASOULI, Chapar (Nuclear Science and Technology Research Institute); Mr BAKHSHZAD MAHMOUDI, Mahdi (Nuclear Science and Technology Research Institute); Dr MAZANDARANI, Abolfazl (Nuclear Science and Technology Research Institute)

**Presenter:** Dr SEDIGHI, Faridodin (Nuclear Science and Technology Research Institute (NSTRI), Atomic Energy Organization of Iran (AEOI))

**Session Classification:** Posters 7

**Track Classification:** EX - Magnetic Fusion Experiments including Validation: EX-M - Material Interactions
