

Technical Meeting on Nuclear Data Needs for Antineutrino Spectra and their Applications

Contribution ID: 25

Type: **not specified**

Near-field Reactor Antineutrino Experiments and Applications in the US

Tuesday 8 April 2025 09:00 (1 hour)

The talk will cover the following:

- PROSPECT: Recent Results and Future Outlook
- Near-field Antineutrino Application Developments in the U.S.

Author: BOWDEN, Nathaniel (Lawrence Livermore National Laboratory)

Presenter: BOWDEN, Nathaniel (Lawrence Livermore National Laboratory)

Session Classification: Reactor antineutrino experiments III
