

International Conference on Radiation Protection in Medicine: X Ray Vision

Monday 8 December 2025 - Friday 12 December 2025

Vienna International Centre (VIC)

Scientific Programme

Please tick as many Track number's that apply to you.

Track 1. Activities relating to the Bonn Call for Action, and their impact.

Track 2. Justification in the use of radiation in medicine.

Track 3. Radiation protection of patients and staff in diagnostic radiography, fluoroscopy and computed tomography.

Track 4. Radiation protection in mammography, dental and maxillofacial imaging and other diagnostic modalities.

Track 5. Radiation protection of patients and staff in interventional procedures.

Track 6. Radiation protection of patients, staff and the public in diagnostic and therapeutic nuclear medicine and hybrid imaging.

Track 7. Radiation protection of patients and staff in radiotherapy including brachytherapy.

Track 8. Radiation protection challenges in design and implementation of new medical technologies, including artificial intelligence.

Track 9. Radiation protection in medical exposures of children and pregnant women.

Track 10. Learning from unintended and accidental exposures in medicine.

Track 11. Radiation safety culture in healthcare.

Track 12. Ethics in radiation protection in medicine.

Track 13. Communication in radiation protection in medicine.

Track 14. Education and training in radiation protection in medicine.

Track 15. Radiation benefit/risk dialogue.

Track 16. Patient dose recording, tracking and data management.

Track 17. Regional radiation safety campaigns.

Track 18. Regulations and guidance supporting radiation protection in medicine.

Track 19. Topics for future research and development in medical radiation protection.
