

Consultancy Meeting on the Preparation of a Major FENDL Release

Contribution ID: 13

Type: **not specified**

To the next major FENDL

Tuesday 13 May 2025 10:30 (30 minutes)

We reviewed some issues presented at the 2023 FENDL meeting and summarized the requests for the next FENDL release about Iron, Copper, Beryllium data. Also we examined an issue which F4E group encountered in analyzing FNG tungsten experiment, which suggests that a lot of files in FENDL-3.2c include data which NJOY does not support.
