

Contribution of European TSOs to research in nuclear safety, radiation protection, waste management and decommissioning

Wednesday, 29 October 2014 12:30 (30 minutes)

Following the European study on the benefits and limitations of Nuclear fission for a low-carbon economy (February 2013), the priorities on research are clearly oriented towards nuclear safety, radiation protection, waste management and decommissioning and active engagement of the public. The European Commission supports all these domains of research through its Euratom Framework Programmes. All European stakeholders endorsed these priorities, in particular ETSON, the European network of Technical Safety Organisations (TSO).

Country or International Organisation

ETSON Research Group

Primary author: Mr BEN OUAGHREM, Karim (IRSN)

Co-authors: Dr KARITA-PUSKA, Eija (VTT); Dr VAN DORSSELAERE, Jean-Pierre (IRSN); Ms PREVOST, Mathilde (IRSN); Mr VOLANT, Philippe (IRSN); Dr RIMKEVICIUS, Sigita (LEI); Dr DELEDICQUE, Vincent (Bel V); Dr KLEIN-HESSLING, Walter (GRS)

Presenter: Mr BEN OUAGHREM, Karim (IRSN)

Session Classification: Session 4: Poster Session

Track Classification: Maintaining and Strengthening TSO Capabilities
