Activities of WiN Slovakia

Thursday, 27 August 2015 14:00 (1h 30m)

WiN Slovakia activities of the last two years are presented. We always try to join professional and social aspects of events to improve not only our knowledge but mutual relationship and cooperation.

List of activities:

1. The technical visit in the contaminated areas in Belarus.
2. The excursion to the chemical and radiation laboratories of Slovak Army and the biological and radiation department of Veterinary University in Kosice.
3. The Open Days in the Slovak Hydrometeorological Institute in Bratislava.
4. The course on radiation protection in Casta-Papiernicka.

All such activities are appreciated by our members and create good platform for next professional and personal relationship.
