

23rd WiN Global Annual Conference

**24–28 August 2015
Vienna, Austria**

**Women in Nuclear meet
Atoms for Peace**

**Chapter report
WiN Brazil**

**Nelida L. del Mastro, PhD
IPEN-CNEN/SP
Consultant, Nuclear
Technology Professor**

Chapter activities

- Our members were involved in activities in the nuclear area such as research, teaching, training, organization of events, such as **The 4th international nuclear chemistry congress-4th INCC 2014** took place in Maresias, São Paulo, Brazil, from 14 to 19 de September 2014, at the Beach Hotel, Maresias, SP, organized by the group of researchers from the Neutron Activation Analysis Laboratory of the Research Reactor Center of IPEN-CNEN/SP, Brazilian Nuclear Energy Commission. The General Chair of the 4th INCC was Dr. Marina B.A. Vasconcellos.

Nuclear developments

- **Number of NPP`s – in planning phase: 4; in operational phase: 2; in construction: 1; in decommissioning phase: 0**
- At present, nuclear power plants Angra 1-with a generating capacity of 657 electric megawatts, and Angra 2-rated at 1350 electric megawatts are in operation.
- Angra 3, a replica of Angra 2, (incorporating the technological advances made since the construction of the latter) is also planned to generate 1405 megawatts.

Thank you!

***Muito obrigada!
Muchas gracias!***
