

Third International Conference on Nuclear Knowledge Management - Challenges and Approaches

Contribution ID: 264

Type: **oral**

What's Next: The Status of ISO Global KM Standards and the Importance of Managing Knowledge Assets

Friday, 11 November 2016 09:00 (15 minutes)

Ron Young, CEO of Knowledge Associates International, based in Cambridge UK, is Chair of the BSI KM Standards Committee KMS/1, member of the BSI Asset Management Committee AMS/1 working with ISO 55000, and member of the ISO 30401 workgroup developing a global KM Standard. He will present the benefits, challenges and implications of a global KM standard, from his perspective, and give an update on the ISO / BSI standard development.

He will also provide insights into the latest developments with knowledge asset management.
