

# Third International Conference on Nuclear Knowledge Management - Challenges and Approaches

Contribution ID: 141

Type: poster

## Decommissioning Activities at IIN-3M Reactor of FOTON, Uzbekistan

*Monday, 7 November 2016 17:00 (1 hour)*

In September 2015 HEU liquid spent fuel of “Foton” IIN-3M research reactor, Tashkent was shipped to the Russian Federation for reprocessing. After fuel shipment the decommissioning process has been started.

### Country or International Organization

Uzbekistan

**Primary author:** Mr KUNGUROV, Fakhruilla (Institute of Nuclear Physics AS RU)

**Co-authors:** Mr MAKSUMOV, Nodir (Institute of Nuclear Physics AS RU, Tashkent, Uzbekistan); Mr BAYTELESOV, Sapar (Institute of Nuclear Physics AS RU, Tashkent, Uzbekistan)

**Presenter:** Mr KUNGUROV, Fakhruilla (Institute of Nuclear Physics AS RU)

**Session Classification:** Poster Session

**Track Classification:** Track 4: Managing knowledge for decommissioning, environmental remediation and radioactive waste management projects, including in countries with phase-out plans
