

Third International Conference on Nuclear Knowledge Management - Challenges and Approaches

Contribution ID: 176

Type: **oral**

ENS and FORATOM Education, Training and Knowledge Management Activities

Thursday, 10 November 2016 14:30 (15 minutes)

The European Atomic Forum (FORATOM) and the European Nuclear Society (ENS) established in 2013 a joint Task Force dedicated to education, training and knowledge management (ETKM) issues in nuclear. The main purpose of the Task Force is to strengthen the link between the industry, research institutes and education and training stakeholders on the European level. Further to inform the European political institutions about the nuclear education and training activities undertaken by various stakeholders. The role of this paper is to present number of activities done in the framework of FORATOM and ENS Task Force and present the recommendations given by the E&T experts. The TF combines the expertise of Human Resources, Training and Education provided by the industry as well as universities and research institutes.

The Task Force aims to play a role of a gateway for collaboration between different key players of the nuclear education, training and knowledge management field. Further TF is aiming as well to inform the European institutions about the actions and roles undertaken by ENS and FORATOM members in the area of education and training.
