

Third International Conference on Nuclear Knowledge Management - Challenges and Approaches

Contribution ID: 11

Type: **oral**

European Decommissioning Academy

Wednesday, 9 November 2016 15:30 (15 minutes)

Experiences from the first run of the European Decommissioning Academy (EDA) are reported in details. EDA was created at the Slovak University of Technology in Bratislava Slovakia, based on discussion and expressed needs declared at many international meetings including ECED2013. The first run successfully passed 15 participants during 7-26 June 2015. Academy was focused on decommissioning issues via lessons, practical exercises in laboratories, on-site training prepared at NPP V-1 in Jaslovské Bohunice, Slovakia as well as 4 days technical tour to other European decommissioning facilities in Switzerland and Italy. Detailed information can be found at <http://kome.snus.sk/inpe/>.

Country or International Organization

Slovak Republic

Primary author: Mr SLUGEN, Vladimir Slugen (Slovak University of Technology)

Co-author: Mr HORNACEK, Martin (Slovak University of Technology)

Presenter: Mr SLUGEN, Vladimir Slugen (Slovak University of Technology)

Session Classification: Technical Session 11

Track Classification: Track 4: Managing knowledge for decommissioning, environmental remediation and radioactive waste management projects, including in countries with phase-out plans
