

26th IAEA Fusion Energy Conference - IAEA CN-234

Tuesday, 18 October 2016

Poster EX/1, TH/1 (14:00 - 18:45)

[id] title	presenter	board
[887] Optimization of the Plasma Response for the Control of Edge-Localized Modes with 3D Fields	Dr PAZ-SOLDAN, Carlos	
[885] Role of MHD dynamo in the formation of 3D equilibria in fusion plasmas	PIOVESAN, Paolo	
[900] Enhancement of helium exhaust by resonant magnetic perturbation fields	Dr SCHMITZ, Oliver	
[890] Penetration and amplification of resonant perturbations in 3D ideal-MHD equilibria	Dr HUDSON, Stuart	
[897] Enhanced understanding of non axisymmetric intrinsic and controlled field impacts in tokamaks	Dr IN, Yongkyoon
